Dear Senators,

Distribution Center

SUNSHINE PERIOD

02-277

We commend you for your fight to over turn the recent FCC decision that allows a few corporations to control what we read, hear, and see. The FCC decision is clearly against the public interest

We urge you to pass legislation that over turns the FCC decision. Stop the consolidation of the media and news into the hands of just a few megacorporations. The health of our democracy depends on full access to open and diverse debate. Media consolidation will eliminate such access and eliminate debate and the diversity of viewpoints.

We commend FCC Commissioners Jonathan S. Adelstein and Michael Kopps who fought so bravely to provide full public disclosure and to protect the public interest.

We urge you to demand a full investigation of FCC Chairman Michael Powell, Commissioner Kathleen Abernathy, and Commissioner Kevin Martin for corruption and conflict of interest. It is questionable whether these Commissioners seriously considered the public interest. In fact, it is clear that the interests of media corporations took precedence over the interests of the public

Your attention to this matter is greatly appreciated.

Sincerely,

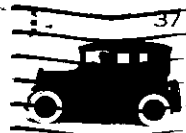

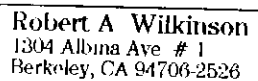

*Robert Wilkinson*

Laura Fujii and Robert Wilkinson
